SUMMER 2009

Grand Old Day 2009 Re-Cap!

INSIDE THIS ISSUE:

Thanks to all the residents who stopped by our booth at Grand Old Day this year! It was a fun day, despite the cold temperatures and rainy morning.

Skally Management helped sponsor and set up the temporary bike racks on the Ayd Mill Bridge for Grand Old Day and is now working with the Grand Avenue Business Association to help bring more permanent bike racks to Grand Avenue! See our photos from Grand Old Day on our facebook page! Just search for "Skally Management."

How to Light a Pilot Light

With a gas stove, there are usually 3 pilot lights that remain lit at all times. If a pilot light goes out, you might smell gas. If this happens, you can easily re-light your pilot light. Just hold a match over the pilot light area under the stove top (it's located between the two burners) or at the back of the broiler under your oven.

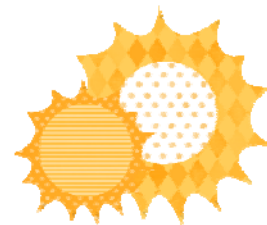

Please call our office if you want a more detailed explanation of how to light a pilot light. 651-263-4080

Thank you!

Summer Picnics for Residents!

Stay tuned for info on summer picnics where you can meet your neighbors and learn more about your community! If you have suggestions on how to make these picnics fun or just general suggestions for your building, please email us at livegreenapts@gmail.com.

MAC MOVES

The Grand Avenue Business Association and the Summit Hill Association are sponsoring MacGrove Moves, a challenge to local residents to bike, blade, walk or run instead of jumping in the car to help with overall air quality as well as physical fitness! The goal is to log 15 non-car trips before 8/12/09. You can get a log sheet and event information at www.macgrove.com.

GREEN TIP FOR SUMMER

Keeping your AC on all day and night can really cause your electric bill to jump! There are other ways to keep your apartment cool this summer:

- Keep your shades closed during the day, especially during the warmest hours in the afternoon.
Use your ceiling fan to keep air flowing.
Open your windows at night when the air is cooler.
Use a dehumidifier to help reduce mugginess in the air.

current availabilities
